

Team members: Gabrielle Pham, Yuexia Huang, Pauline Tanwin

I believe my team members had been helpful and communicative throughout this final project for CMSC436. I believe each of my team members had been expressing their thoughts and feelings about how the application should be made. Also, I am grateful that my team members are also sharing schedule and when they are available. This is helpful because it allows me to know when I can help to chip in and support when they are in trouble. When been using Groupme, email, and zoom to communicate.

Pauline said she wanted to be in charge of the back end of the work such as wanting to be dealing with the Kotlin code and deciding what key features or content to implement. She also gathers resources and references we can use to study and understand so that we have a better understanding of how to build the application. I believe Pauline is a very communicative and expressive team member who can explain concepts in detail verbally.

Yuexia said she wants to be in charge of the front end of the Slackr project and has been sharing out a suggestion on how the user interfaces such as the what screens will be included and how the android layout with the XML files will be handled. Secondly, she is also in charge of making the necessary image assets necessary to implement the overall theme and feel of the project. Thirdly, she has been in charge of designing how the main features to incorporate into the overall user experience and have been improving the detail on that.

I have overseen keeping the team members on track. I have been keeping track of the necessary deadline of the project and sending my teammate the reminders. Also, I was the one to manage the GitHub. Fortunately, my teammate had been very responsive was I was able to add them to the GitHub and they were able to write their necessary information. Lastly, I was also responsible for setting the GroupMe where we communicate with each other, and I was responsible for making the necessary communication between the Teacher Assistants and the Professor.

Communication: Pauline 5/5, Yuexia 5/5

Quality Work: Pauline 5/5, Yuexia 5/5

Supportive: Pauline 5/5, Yuexia 5/5
